

15 Years of the Narlikar Lab Schedule

April 26th, 2019

Symposium: UCSF, Mission Bay, Genentech Hall, N-114
600 16th St, San Francisco, CA, 94158

8:45-9:20AM: Breakfast (location—outside of seminar room)

9:20-9:30: Introduction

Session 1 (9:45-11:35AM)

- | | |
|-------------|---|
| 9:30-9:55 | John Gross-- <i>"Chromatin dynamics, one residue at a time"</i> |
| 9:55-10:20 | Yifan Cheng-- <i>"Single particle cryo-EM: a new era of structural biology"</i> |
| 10:20-10:45 | Carolyn Larabell-- <i>"Geeta Meets SXT"</i> |
| 10:45-11:10 | Daniele Canzio-- <i>"From sticky-ends to holding-hands: a code for neural circuit assembly"</i> |
| 11:10-11:35 | Lisa Racki-- <i>TBA</i> |

Lunch: 11:45AM-1:00PM

Session 2 (1:00-2:40PM)

- | | |
|-----------|--|
| 1:00-1:25 | Peretz Partensky-- <i>"Life is practice for life"</i> |
| 1:25-1:50 | Georgette Charles-- <i>"The wocket in my pocket and interesting places to take a PhD"</i> |
| 1:50-2:15 | John Leonard-- <i>"Molecular Surveillance: T cell Antigen Recognition in Health and Disease"</i> |
| 2:15-2:40 | Stephanie Johnson-- <i>"Watching two-motor teams slide single nucleosomes"</i> |

Coffee Break (2:45-3:15PM)

Session 3 (3:15-5:20PM)

- | | |
|-----------|--|
| 3:15-3:40 | Stefan Isaac-- <i>"The 3D architecture of the mitochondrial nucleoid and its role in organelle regulation"</i> |
| 3:40-4:05 | Adam Larson-- <i>"Thinking about falling down"</i> |
| 4:05-4:30 | Laura Hsieh-- <i>"A Life Remodeled"</i> |
| 4:30-4:55 | Nathan Gamarra-- <i>"Dynamics of a Senior Graduate Student"</i> |
| 4:55-5:20 | Serena Sanulli-- <i>"The Swi6 revolution"</i> |

Dinner at Potrero Neighborhood House, 6:30PM-late: 953 De Haro St., San Francisco, CA 94107
